7. Making Safeguarding Personal

Making Safeguarding Personal means that adult safeguarding should be person led and outcome focussed. It engages the person in a conversation about how best to respond to their safeguarding situation in a way that enhances involvement, choice, and control. As well as improving quality of life, well-being, and safety.

Wherever possible discuss safeguarding concerns with the adult to get their view of what they would like to happen and keep them involved in the safeguarding process, seeking their consent to share information outside of the organisation where necessary. There may be circumstances where you need to share information with others and or agencies to protect an individual.

8. Confidentiality

It is important that any information is treated as confidential as far as is reasonably possible to build trust and respect. If you think that sharing information with another person such as the Safeguarding Team or Manager could help the person, encourage the person to disclose information themselves with the people who need to know. If they do not wish to do this, explain to the individual that you will need to inform others such as the Safeguarding Officer and the reasons why, and seek their clear and specific consent to this.

9. Responsibilities

Every member of staff or volunteer is responsible for familiarising themselves with the content of this policy and the associated safeguarding policies and procedures. Safeguarding is everyone's responsibility, and it is down to the individual to raise concerns appropriately and in line with the Safeguarding procedure.

The safeguarding team is of varying backgrounds and levels within the organisation, but all receive regular Safeguarding training.
